### TALK OF THE TOWN

Mrs. Julia Durette, who has been confined to her home for two weeks, is somewhat improved.

Roger Erickson and Ronald Morgan played for a dance in the K. of P. hall in Waterbury last night.

Buy your fancy work, food, aprons, and your supper at Easter sale, Congregational church, next Wednesday—adv.

P. G. Lamson of Cambridge, Mass., a granite publicity agent, is passing several days in the Barre granite district.

A. W. Clark returned home yesterday from Rumney, N. H., where he had been at work painting and papering for several weeks.

A regular meeting of local 488, M. P. U., will be held in band room, old city hall, Sunday, April 6, at 3 p. m. A. E. Milne, secretary.

George Andrews of South Main street and John Milson of Pleasant street started this morning for Clyde, O., and are to be employed in the granite industry of that place.

Deposits in savings department of the Peoples National bank made on or before next Monday will draw interest at 4 per cent from April 1, with National bank protection.

Waldron Shields left yesterday afternoon for a two weeks' business trip in the west. His first stop will be at Waverly, O., where his wife has been visiting for the past two months. Mrs. Shields will accompany him upon the return home.

The Barre Board of Trade will hold its annual meeting Tuesday evening, April 15, in the granite manufacturers' rooms, C. W. Averill block, to transact the following business: To hear the reports of officers and committees, election of officers for the ensuing year and to do any other proper business. H. A. Phelps, clerk.

Communion service at the Baptist church on Sunday morning at the close of the preaching service, instead of having it in the evening. Will the members please note the change and be present? In the evening the pastor will preach on the subject, "Earthly Sisters." This sermon is repeated by request.

At a meeting of former residents of Dalbeattie, Scotland, held last night to consider what they could do regarding the appeal for subscriptions to help to erect a suitable memorial to 121 men and women of Dalbeattie who made the supreme sacrifice in the great war, it was decided to make a call on all former residents of Dalbeattie in Barre and vicinity and get their opinion on the subject. The following men were elected to attend to the business—William G. Fowler, John Stewart, George Thomson and Gordon Watson.

In distributing the inventory blanks among the granite manufacturers, members of the assessing board and their representatives have been surprised by the apparent shrinkage in the number of men employed. Each manufacturer is required to fill out a blank on which are listed the names of the men employed by him. While business conditions in the Barre granite industry are steadily improving, it appears that fewer men than in some past years are employed. By many this is believed to portend a trend toward the increased use of machinery in the industry.

Ralph D. Brackett of Greenland, N. H., has been secured to take the place made vacant by the resignation of Mr. Noble at Goddard seminary. Mr. Brackett is a graduate of New Hampshire State college. He will teach physics, chemistry and some of the work in history. He is a former athlete and has been very active in athletics. He will have charge of the athletic teams this spring. He played baseball at Exeter and both baseball and football during his college career. He understands coaching of the track team. He was instructor in military training the last two years that he was in college. After graduating in May, 1918, he enlisted and has recently been honorably discharged. The spring term will open next Tuesday and the session of the evening school will begin Tuesday evening. Students will be received in any of the courses at the opening of the spring term.

That the Barre granite manufacturers are aiming to produce an entirely different type of monument from that erected as memorials to the Civil war and Spanish-American veterans is evinced by the exactness with which they are striving to portray everything true to the life of the soldier and his wearing apparel. One incident of this exactness is described in the "Barre Granite" Magazine published by the Granite Manufacturers' association. A dealer, rather than accept an ordinary rifle for a model to be sculptured in granite, went so far as to obtain one used in the European struggle. It is now placed in the care of the association secretary so that it may be available for any other producer desiring such an article for his model. Without a doubt, the people of this generation who see soldiers' memorials will note a marked change in the subjects depicted from those of previous years. Instead of a figure of a soldier with a wreath adorning his head as he stands at "Parade Rest," there will probably be some actual scene portrayed which might be recognized by a spectator who will be examining the architect's design. It is with this ideal in view that the manufacturers are pleasing their customers and advertising Barre granite.

The "Nation" social at the Congregational church last week was a very enjoyable affair. National songs of Italy, Belgium, France, Ireland, Scotland, England and Canada figured on the program, which ended with "America." Flags of the allies decorated the parlors and games and a cafeteria lunch rounded out the evening's pleasure.
